QGIS Application - Bug report #21344
pasting features changes the order of columns in attributes table (table view)

2019-02-22 12:25 AM - Lene Fischer

Status:	Open			
Priority:	Normal			
Assignee:				
Category:	Attribute table			
Affected QGIS version:	3.5(master)		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	29162

Description

Hi
I have 2 layers in a geopackage file
Layer 1 has 6 fields
Layer 2 has 12 fields

The first 6 fields has the same names and types for both layers.

If I copy from layer 1 paste into layer 2 some of the fields are moved in the attribute tabel.
When I look into Source Fields - it´s correct.
I have attached the project and data

History

#1 - 2019-02-22 12:26 AM - Lene Fischer

- File kirkegaard.gpkg added

#2 - 2019-02-22 10:17 AM - Giovanni Manghi

- Operating System deleted (Windows 7)

- Subject changed from Copy / Paste features rearrange fields to pasting features changes the order of columns in attributes table (table view)

In form view the order seems also correct (other than in vector properties).
