Description

I have this expression:

    map('a', 1, 'b', 2)['a']

which works well in the expression dialog.

But if the expression is in a layout label, then it doesn't work:

    [%map('a', 1, 'b', 2)['a']%]

The expression is displayed in the label instead of getting evaluated.

Only this one works:

    [%map_get(map('a', 1, 'b', 2),'a')%]
