Easy fix?:	No	
Description		
<p>I'd like to see the option to specify a few default behaviors for the Layers list for all new layers generated and added to the project.</p> <p>For instance, for vector data, I always turn on Show Feature Count. It'd be great if this was an option I could have on by default for Vector data.</p> <p>I also typically add Vector data to my overview, but Raster data I do not. So the ability to configure an automatic Add To Overview for Vector data would be pretty incredible.</p>
