could be. it depends for me, wether rel 14 is later than f114ad89 or not. But i dont know this, because qgis will not start.

In the folder osqeo4w64, i searched **ggrass**-files and found:

qgis-dev-bin-ggrass76v.exe  
qgis-dev-bin-ggrass76v.vars

The mentioned file in the popup "qgis-dev-bin-ggrass76v.env" does not exist in the osgeo4w64 folder.

What is "rel 14"?

Applied in changeset commit:qgis|8e70c08b18f6897da2b54a48f5aa025c27171475.

**#6 - 2019-03-27 12:49 PM - Pedro Venâncio**

Hi Jurgen,

I believe it was also fixed in commit:8e70c08b18f6897da2b54a48f5aa025c27171475, but the .bat files were not created, just the .bat.tmpl files.

And the Start Menu shortcuts were calling qgis-xxx-xxx-bin-ggrass76v.exe, instead of the .bat files.
