

QGIS Application - Feature request #2169
improve identify tool highlighting

2009-11-30 03:56 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Map Canvas	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 12229
Description		
<p>Actually an identified feature become highlighted only after clicking on the identify results window.</p> <p>As user I don't find very useful, but I understand that is just my point of view. Nevertheless I guess that it can be left to the user decide how this tool can work, maybe adding a checkbox in the qgis options.</p> <p>The behaviour I suggest is to have the features highlighted immediately when are found by the identify tool. This should work also if the tool identifies more than one feature.</p>

- Resolution set to fixed
- Status changed from Open to Closed

ok. I'm convinced. fixed in commit:f2c0df21 (SVN r12308)

#2 - 2009-12-02 02:29 AM - Giovanni Manghi

works like a charm, thanks!
