Description

In the about screen for the current version of QGIS 3.6.1 the screen reads:

We are working on 3.7-Master. It will go into feature freeze on 2019-04-26 12:00:00 UTC and be released as 3.6 on 2019-06-21 12:00:00 UTC.

I am no English language expert but this looks like a typo and it must say instead: ... and be released as 3.7 on 2019-06-21 12:00:00 UTC.

Thank you.
