I've tried another time and this time qgis gives mi the error (that I leave attached).

#2 - 2019-04-06 11:48 AM - Giovanni Manghi

- Operating System deleted (Windows 7 ubuntu 18.04)

- Status changed from Open to Feedback

- Subject changed from Check geometries to "Check geometries" tool does not fixes errors

I cannot replicate the crash here on 3.6.1. I can replicate that the tool does not fixes the overlaps (I think they are all overlaps).
