

QGIS Application - Bug report #21748

Categorized style do not works with NULL value

2019-04-03 03:46 PM - Roberto Marzocchi

Status:	Open	
Priority:	High	
Assignee:		
Category:	Symbology	
Affected QGIS version:	3.4.6	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29563
Description		
Using categorized style the NULL value are not correctly classified as else.		
Using rule they are correctly classified.		

History

#1 - 2019-04-03 03:57 PM - Roberto Marzocchi

It works correctly for "varchar" fields not for "numeric" fields

#2 - 2019-04-04 04:49 PM - Roberto Marzocchi

- File Cattura.PNG added

There is also a problem in count (not rendering) with "style with rules" when you try to do a double classification using two different fields

Cattura.PNG

#3 - 2019-04-04 08:13 PM - Giovanni Manghi

- Priority changed from Normal to High

- Status changed from Open to Feedback

This was tagged a regression because worked well in some version < 3.4?

#4 - 2019-04-04 10:05 PM - Roberto Marzocchi
