QGIS Application - Bug report #21752
qgis-ltr-bin.exe is eliminated by antivirus

2019-04-03 05:47 PM - David Avalos

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Build/Install			
Affected QGIS version:	3.4.6	**Regression?:**	No	
Operating System:	Windows 10	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	29567	

Description

Recently, my Kaspersky antivirus software has been deleting the QGIS long term release executable due to a trojan threat.
Is only occurring with my antivirus, software, etc.? Should I only allow the software to completely perform (QGIS)? Is there any risk on granting such permission?
