Pull Request or Patch supplied: Resolution:

Easy fix?: No Copied to github as #: 29570

Description

It'd be really helpful if we could group map composer elements, possibly locking the entire group. An Alias for the group would also be helpful, something like "right panel", etc, with the constituent elements beneath that grouping, as opposed to the current flat Item listing which can get rather busy/cluttered when a map layout gets more detailed.
