Affected QGIS version:	3.4.4	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 29605
Description		
User Feedback		
Saving project whilst another copy of QGIS is open with another project. Seems that having more than one copy of QGIS open causes this error on save. Does not seem to happen with a single copy of QGIS open. However I often need to work on more than one project simultaneously.
