

## QGIS Application - Bug report #21863

### issues with embedded layers

2019-04-16 04:52 PM - Denis Rouzaud

<b>Status:</b>	Open	
<b>Priority:</b>	High	
<b>Assignee:</b>	Denis Rouzaud	
<b>Category:</b>	Map Legend	
<b>Affected QGIS version:</b>	3.7(master)	<b>Regression?:</b> Yes
<b>Operating System:</b>	unspecified	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 29678
<b>Description</b> <ul style="list-style-type: none"><li>- visibility state is not saved (when embedding or when saving project) (see <a href="https://lists.osgeo.org/pipermail/qgis-developer/2019-April/057065.html">https://lists.osgeo.org/pipermail/qgis-developer/2019-April/057065.html</a>)</li><li>- new layers can be added to embedded group (they should be protected)</li></ul>		

#### History

##### #1 - 2019-04-16 05:18 PM - Rémi Bovard

Thanks Denis for reporting my issue here :)

Could you please tag it as a regression, since it was working fine in last LTR (at least the first point)?

Best regards,

R.

##### #2 - 2019-04-16 05:33 PM - Jürgen Fischer

- *Regression? changed from No to Yes*

##### #3 - 2019-04-16 06:04 PM - Denis Rouzaud

- *Category changed from Mesh layers to Map Legend*

##### #4 - 2019-04-17 01:10 PM - Jean-Roc Morreale

Denis, I use the new layers support in embedded group as a feature, please do not remove.

##### #5 - 2019-04-17 03:08 PM - Giovanni Manghi

- *Priority changed from Normal to High*

##### #6 - 2019-04-18 06:02 PM - Denis Rouzaud

Jean-Roc, this doesn't like a feature to me, if not a bug, rather a weakness.

Couldn't you play a bit differently and add the layers instead of the group?

I'm a bit hesitant here.

##### #7 - 2019-04-18 06:44 PM - Jean-Roc Morreale

I use the group to add new layers to all the projects based on it without manually editing them, pointing directly to the layers would add work. Is there another way to achieve this kind of usecase ?

**#8 - 2019-04-18 08:18 PM - Denis Rouzaud**

Jean-Roc, I think we are not talking about the same thing.

Adding project within a group in **the embedded project** so that projects embedding this group also get updated is indeed a feature.

But I think we should not be able to add a layer in the embedded group of **an embedding project**.

**#9 - 2019-04-19 08:54 AM - Jean-Roc Morreale**

Sorry Denis for the misunderstanding !
