

QGIS Application - Bug report #21984

The composer export functions don't remember last used path on mapped network drives

2019-05-03 10:01 AM - Pierre Kremer

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	3.6.2	Regression?: Yes
Operating System:	Windows 10 PRO	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 29799
Description		
<p>Unlike in version 2.18.28, <u>when exporting to a mapped network drive</u>, the default path is reset to the network drive root with each export from the composer (image, pdf etc.)</p> <p>NB: after closing Qgis and reopening another project, the last used path from the previous project is proposed with the first export, then is reset with the next export.</p>
