Description

As documented on https://gis.stackexchange.com/questions/322228/save-tiff-from-wms-layer-qgis-for-bhuvan-lulc

Exporting a TIFF from a WMS layer results in a log message saying 'Layer Exported: Successfully saved raster to ..." but no Tiff is exported. Exporting a GeoPackage of the same layer to the the same location works.

Affects Windows versions of QGIS (QGIS 3.4.1 as per original question, and 3.6.1-Noosa)
