

QGIS Application - Bug report #2211

Georeferencing warp dialog non-functional

2009-12-08 12:27 PM - John Tull

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:	C++ Plugins	
Affected QGIS version:		Regression?: No
Operating System:	OS X	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 12271
Description		
When trying to perform a georeference on an image that also needs to be warped, the warp options dialog comes up, but the cancel and ok buttons do not react to mouse inputs/clicks. This is on OS X with qt-4.5.3, so not sure if the same will happen on other platforms.
