QGIS Application - Feature request #2231
No warnings when connection settings overwrites

2009-12-09 10:57 AM - Alexander Bruy

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Data Provider		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12291

Description

Testcase

1. Create a new connection to [[PostGIS]] database with all fields filled and save it

2. Create another connection with same name and fill fields with another data

3. Save second connection

First connection will be overwritten without any warnings and prompts. Same problem with WMS commections - there is no overwrite prompt or warning message.

Discussion in Russian http://gis-lab.info/forum/viewtopic.php?f=35&t=4346

Simple patches attached, but this is not an elegant solution.

History

#1 - 2009-12-09 11:10 AM - Giovanni Manghi

Does this happen also for wfs connections?

#2 - 2009-12-09 01:41 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

extended version of the patch applied in commit:80c1cf32 (SVN r12391). Thanks.
