QGIS Application - Bug report #2233
Raster Layer Properties for WMS layers

2009-12-09 11:40 AM - dr -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Rasters		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	12293

Description

If click with right button of mouse on name of WMS layer at TOC - Raster Layer Properties window is appeared. But the items of this window: Colormap, General, Metadata, Pyramids, Histogram don't work.

History

#1 - 2009-12-09 12:10 PM - Giovanni Manghi

In the past versions of qgis (<= 1.3) the only tabs available for wms layers were "transparency", "general", "metadata".

Things in wms dialogs in qgis trunk seems to be messed up.

What for a "normal" raster appear in "transparency" in wms dialogs appear in "symbology"

moreover

what for a "normal" raster appear in "general" in wms dialogs appear in "transparency"

and the only thing in place seems to be "metadata".

#2 - 2009-12-11 12:45 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

fixed in commit:8b387009 (SVN r12413).
