This is not clear to me. Do you mean that only active layers in the legend should show in "project properties -> general -> avoid intersection of new polygons"?

If yes then I checked and actually not active polygons do not appear in that menu, on both linux and windows. Please leave further feedback. Thanks.

#2 - 2009-12-10 03:50 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

fixed in commit:1c6d7b53 (SVN r12404).
