This was supposed to have been fixed here #1942 and here #2014 but I guess the fix didn't work out for map units.

Yes, bug still exists.

#3 - 2010-01-20 04:49 AM - jekhor -

Window is not growed up now and main controls remains usable, but label preview is useless with map units.

#4 - 2011-09-21 09:32 AM - Andrew Chapman

Still there in 1.7.

Should be fixed with commit:547a05a

Map units now default to sample at 24 pts. Could be better with actual preview with map scale. No longer broken-looking though.
