

QGIS Application - Feature request #225

Make attribute actions work on multiple features

2006-08-04 02:22 AM - Gavin Macaulay -

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Gary Sherman	
<b>Category:</b>	Vectors	
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 10284
<b>Description</b>		
People are regularly asking questions on how to use attribute actions to do the same thing to a selection of features, but currently, actions only work on a single feature.		

History

#1 - 2007-07-21 09:21 PM - Tim Sutton

Changed to minor under the following scheme:

- blocker - bugs that should block the release. Since we are going to release pretty much 'come what may' I would like no bugs
- allocated to this category without consultation with me and / or PSC
- critical - bugs that cause the application to crash or corrupt data
- major - application features that do not function at all
- **minor** - features that function but imerfectly e.g. labels placing incorrectly
- trivial - gui useability issues or small issues with the documentation, install notes etc.

#2 - 2009-07-03 05:33 AM - Giovanni Manghi

- *Resolution set to fixed*
- *Status changed from Open to Closed*

Actually (qgis > 1.1) attribute actions do works on selections of features. Closing.
