

QGIS Application - Feature request #227

Print CPPFLAGS and CXXFLAGS in configuration summary

2006-08-06 04:34 PM - Mateusz Loskot -

Status:	Closed	
Priority:	Low	
Assignee:	Gary Sherman	
Category:	Build/Install	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 10286
Description		
<p>This is a tiny enhancement that prints compilation flag values in the configuration summary at the end of ./configure run. Here is sample output:</p> <pre>\$ CXXFLAGS="-g -Wall -pedantic" ./configure  ... Python      : no  CPPFLAGS    : CXXFLAGS    : -g -Wall -pedantic  Debug       : yes ...  I'd be thankful for accepting this small enhancement because I use various compilation flags quite often when building QGIS. I included patch ready to apply.</pre>		

History

#1 - 2006-08-06 05:14 PM - Mateusz Loskot -

FYI, I applied this small patch to configure.in from the branch called [Lib\\_Refactoring-branch](#)

#2 - 2006-08-07 12:53 AM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

Applied to head as SVN commit:a247aa52 (SVN r5671)
