QGIS Application - Bug report #2333
labeling: Data defined label placement doesn't work for up and down

2009-12-29 04:33 AM - luca76 -

Status:	Closed		
Priority:	Low		
Assignee:	Jürgen Fischer		
Category:	Symbology		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:		**Copied to github as #:**	12393

Description

Old simbology: Data defined label placement doesn't work for up and down (but yes for right and left).

Steps to reproduce:

1. Open symbology properties for a point layer;
1. click on "Labels" (mine is in italian, I am trying to translate it)
1. click on "Data defined settings" mini-tab
1. set the field for "Alignment"

it works if the Alignment data field contains right and left values, but not for up and down values.

History

#1 - 2009-12-29 04:57 AM - luca76 -

errors in my text:

1. **ABOVE AND BELOW** (not Up and Down)
1. **DATA DEFINED PLACEMENT** (not Data Defined Settings)
1. **PLACEMENT** (not Alignment)

#2 - 2009-12-29 05:01 AM - Jürgen Fischer

- Resolution set to invalid

- Status changed from Open to Closed

Replying to [comment:1 trapanator]:

> 1. ***ABOVE AND BELOW*** *(not Up and Down)*

try **TOP** or **BOTTOM**
