

QGIS Application - Bug report #2398

Attribute table: rows missing after editing a shapefile

2010-01-26 08:42 AM - Donkagen2 -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: worksforme
Crashes QGIS or corrupts data:		Copied to github as #: 12458
Description		
<p>If a new polygon is created in a shapefile, the change saved and then the attribute table opened, the attribute table is missing most of the rows.</p> <p>Quit and restart QGIS and the attribute table will now display all the rows, including the information from the last edit session.</p>
