QGIS Application - Bug report #2450
Simplify tool segfaults if OTFR is enabled

2010-02-17 07:15 AM - marisn -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Digitising			
Affected QGIS version:			**Regression?:**	No
Operating System:	Gentoo		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	12510

Description

I used following dance to make it crash:

- Add raster layer with CRS1;
- Enable OTFR and set project CRS to be CRS1;
- Add Shapefile with CRS2;
- Enable editing for shapefile and draw a line;
- Choose "Simplify" tool and click on that new line;
- ka-BOOM! (see attached full backtrace for trunk r12951M)

Same issue was reported by 15 students running QGIS-1.4.0 on [[WindowsXP]]. (Frequent crashes where a nice addon to lab works :(

History

#1 - 2010-03-28 01:37 AM - Martin Dobias

- Resolution set to fixed

- Status changed from Open to Closed

fixed in commit:a066fe33 (SVN r13177)
