

QGIS Application - Bug report #2470

Sizing issue with coordinate reference system selector

2010-02-25 12:55 PM - Chris Crook

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Build/Install	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 12530
Description		
<p>The coordinate reference system selector dialog displays buttons with the four most recently selected systems. For systems without a name, eg "Generated CRS (+proj=merc)" the string used to represent the system becomes very long. This makes the dialog expand to an inconveniently large size. I think it would be better to limit the size...</p>
