

QGIS Application - Bug report #2495

ftools: random points tool take a long to create output

2010-03-06 03:13 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	cfarmer -	
Category:	Python plugins	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 12555
Description		
<p>Open the "alaska" shapefile from the qgis sample dataset. Set the project CRS as the one of the vector and try create a random point layer with the appropriate tool in the vector menu. Choose "1000" as the number of points to draw.</p> <p>The tool slowly arrives at 47% then seems to stop. I waited a few minutes and nothing changed. I don't know if it is a real freeze but on the user end is like one.</p> <p>Tested on trunk on both windows xp and ubuntu 9.10.</p>
