

QGIS Application - Bug report #2553
QgsDataSourceURI.setSql() doesn't support LIMIT query string

2010-03-13 04:05 AM - Giuseppe Sucameli

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Data Provider	
Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 12613

Description

Trying this (in python)

```
uri = qgis.core.QgsDataSourceURI()
uri.setConnection(host, port, dbname, user, passwd)
uri.setDataSource(schema, table, geom_column)
uri.setSql('LIMIT 10')
```

vl = qgis.core.QgsVectorLayer(uri.uri(), layername, "postgres")

terminal displays this error

```
row number 0 is out of range 0..-1
```

so this query returns no rows.
