

QGIS Application - Bug report #2563

New Symbology symbols not grow when in map-unit

2010-03-18 11:43 AM - aperi2007 -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Symbology	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 12623

Description

Using the new-symbology.
Using fonts or markerSVG on a linear layer and setting map-unit.
Zooming on the rendering increase the distance between symbols but the size of symbol is always the same. Instead when zooming-in the size must increase and when zooming-out the size must decrease.

History

#1 - 2010-05-05 02:35 AM - Martin Dobias

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in recent commits (working as of commit:bda45a08 (SVN r13425))

#2 - 2010-05-05 02:42 AM - Giovanni Manghi

Hi Martin,

just one detail, the "marker interval" parameter does not seem to scale accordingly when units are map units.
