

QGIS Application - Feature request #2579

Adding "Save changes" button to layer editor

2010-03-22 04:46 AM - Jhelebrant -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	GUI	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 12639
Description		
currently, saving some particular changes to vector layer needs: 1) switch the editing mode off 2) press OK to save the changes 3) switch the editing mode on to be able to add new points this is not much comfortable, while doing large digitizing or adding many points. One button to save the changes while keeping the editing mode on would be very helpful so please consider adding it to newer QGIS version. :D		

Associated revisions

Revision 5fca89d7 - 2010-05-16 04:44 PM - Jürgen Fischer

[FEATURE]

- save edits button added (implements #2579)
- subset option to layer menu (implements #2660)
- show selected feature count in status bar (implements #2708)
- temporary workaround for #2714
- refactored redundant code from legend to qgisapp:
 - attribute table, save as, layer removal, layer properties
- some more cleanups
