

QGIS Application - Feature request #2595

More choice in label placement

2010-03-27 01:21 AM - aperi2007 -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Build/Install	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 12655
Description		
<p>In the new-simbology would be wonderful to have more choice for label placement.</p> <p>For linear, point and poly.</p> <p>Need to have the choice to place a label for each part (in multipart), or 1 only for record (so 1 only in the centroid of multipart), or 1 for value (so if there is more records with same label value only the first is showed).</p> <p>All this rules applied not to the full-archive, but to the showed part of the archive, the extent showed in the canvas.</p>		

History

#1 - 2010-03-27 02:16 AM - Martin Dobias

- Resolution set to fixed
- Status changed from Open to Closed

The same as for #2594 - use labeling plugin, the features you request are available there.
