

QGIS Application - Feature request #2622

Patch to visualize residuals

2010-04-03 05:29 AM - Marco Hugentobler

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	mmassing -	
<b>Category:</b>	C++ Plugins	
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 12682
<b>Description</b>		
<p>This patch adds visualisation of the residuals to [[QgsGCPCanvasItem]] (red lines). Also, it removes some members in [[QgsGCPCanvasItems]] and adds an association to [[QgsGeorefDataPoint]] instead (removes small redundancies between those two classes).</p> <p>Manuel, could you review this patch?</p> <p>Thanks, Marco</p>		

History

#1 - 2010-04-03 09:47 AM - mmassing -

- Resolution set to fixed
- Status changed from Open to Closed

Committed in commit:9b1e0b90 (SVN r13230).

Marco, thanks for the patch, cleanups and new features looks good :) I just applied a minor correction which flips the residuals y-axis, needed due to the somewhat idiosyncratic coordinate system used for GCP transforms.
