

QGIS Application - Bug report #2630

"merge selected features" tool produce strange numbers in the table

2010-04-06 09:49 AM - Maxim Dubinin

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: worksforme
Crashes QGIS or corrupts data:		Copied to github as #: 12690
Description		
r13239		
Try this shapefile (fresh project, no CRS assigned): http://gis-lab.info/forum/download/file.php?id=524		
1. Start editing, note number of polygons - 515		
2. Merge two polygons, note number of polygons - 514		
3. Save edits, note number of polygons		
If the number is ok, repeat 2,3. Try several times.

History

#1 - 2011-03-02 08:54 AM - Alexander Bruy

This ticket related to the "merge selected features" from advanced digitizing toolbar, not to the fTools "merge shapefiles" tool

#2 - 2011-04-17 11:19 AM - Maxim Dubinin

- Resolution set to worksforme

- Status changed from Open to Closed
