Good point. It needs a project file transformation for backwards compatibility.

Could this be related to another issue I found opening a map created in 1.4 in 1.5:

The map had a number of arrows and labels. I selected one of the arrows, clicked 'Bring to front', and a nearby label disappeared.

No, that's a different problem (bug in sorting of item z-List). commit:98f68b04 (SVN r13586) tries to fix it.

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:f9a5aec8 (SVN r13599)
