

QGIS Application - Feature request #2764

Put in status bar instead of options - "By default new layers added to the map should be displayed"

2010-05-30 08:24 PM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 12824
Description		
<p>I don't know if anybody else works like I do, but I prefer to add layers by drag-and-drop. I also tend to have the rendering option "By default new layers added to the map should be displayed" turned on, but I have learned to turn it off when I want to add a large number of layers simultaneously ?</p> <p>It would be quite convenient if the toggle for this setting was in the status bar instead of in the options dialogue.</p> <p>I guess it would only be a big improvement for people who add layers frequently though...</p>

- Pull Request or Patch supplied set to No
 - Status changed from Open to Closed
 - Resolution set to wontfix
 - Assignee deleted (nobody -)

I don't think it's desirable to have this setting in the already crowded status bar.
