Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 12831
Description		
my previous submission had too big file How do I know if a ticket was generated? bug ticket not working well for me Scott		

History

#1 - 2010-06-02 02:35 AM - Giovanni Manghi

- *Resolution set to invalid*

- *Status changed from Open to Closed*

Ticket was generated. Every time a ticket is opened or a comment added it sends an email in the qgis-trac mailing list.

If you need to attach a file but it is too big (limit is 250kb) then add a link in the comment instead.

I'm getting more familiar with the bug tracking system. I needed to enable cookies.
