

QGIS Application - Feature request #2774

enable double-click to zoom to bookmarks

2010-06-01 08:04 PM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	GUI	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 12834
Description		
It would be efficient and intuitive if you could double-click on a bookmark in the bookmarks dialogue to zoom to the bookmark and optionally close the dialogue.

Hmmm. Maybe this should be a bug, not a feature request.

Some of the code is already there; it looks like the feature was not fully reimplemented in the refactoring.

I really don't know what I'm doing, but I thought this change would work. No such luck :(

```
diff -r qgis/src/app/qgsbookmarks.cpp qgis_orig/src/app/qgsbookmarks.cpp
69,70d68
< // connect the slot up to catch when a bookmark is double-clicked
< connect( lstBookmarks, SIGNAL( doubleClicked(QTreeWidgetItem*) ), this, SLOT( on_lstBookmarks_doubleClicked( QTreeWidgetItem * ) ) );
193c191
< void [[QgsBookmarks]]::on_lstBookmarks_doubleClicked( QTreeWidgetItem *item )
---
> void [[QgsBookmarks]]::on_lstBookmarks_doubleClicked( QTreeWidgetItem *lvi )
diff -r qgis/src/ui/qgsbookmarksbase.ui qgis_orig/src/ui/qgsbookmarksbase.ui
```

#2 - 2011-03-06 08:03 PM - Alister Hood

Oops - don't worry about the diff of the .ui file in that last line - it was just whitespace.

#3 - 2011-06-02 08:24 AM - Jürgen Fischer

- *Resolution set to fixed*
- *Status changed from Open to Closed*

fixed in commit 9ae32d32b2cbc82eee29e550f6b2a2b33d3043e4
