Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12873

Description

Hello,

When trying to compile on msvc, using flex and bison from msys, I'm receiving some error messages regarding the lexer. Some messages are about missing unistd.h, and one message is missing isatty(int) function.

I found the caused, and attached a patch for it. Please review and accept it.

Thanks,
- Orgad

- Resolution set to fixed

- Status changed from Open to Closed

Thanks. Applied in commit:862209bb (SVN r13741).

BTW [[GnuWin]]32's flex works without that patch on MSVC (and includes an unistd.h).
