QGIS Application - Bug report #2886
Osgeo4w-setup don't install qgis-dev

2010-07-14 03:10 PM - aperi2007 -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Build/Install		
Affected QGIS version:		**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:		**Copied to github as #:**	12946

Description

Try-ing to install last version of qgis-dev I'm having then message

"Download incomplete, try again ?"

So the installation of qgis-dev was not possible.

History

#1 - 2010-07-14 04:47 PM - Jürgen Fischer

- Resolution set to invalid

- Status changed from Open to Closed

OSGeo4W servers have been compromised. Looks like services haven't been completely restored yet. Anyway, this isn't a QGIS problem.
