Category:	Project Loading/Saving			
Affected QGIS version:			**Regression?:**	No
Operating System:	Debian		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	invalid
Crashes QGIS or corrupts data:			**Copied to github as #:**	12953

Description

I have been using QGIS 8.0 to create layers and to do some basic queries. I have installed QGIS 1.4 version and its failing to open files created in QGIS 8.0 version. How do I go around this problem?

History

#1 - 2010-07-22 10:16 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed

I believe that the compatibility with 0.x projects has been broken since 1.0.x.
