

## QGIS Application - Feature request #2895

### WMS provider doesn't handle exceptions

2010-07-19 10:26 AM - Sandro Santilli

<b>Status:</b>	Open	<b>Resolution:</b> <b>Copied to github as #:</b> 12955

<b>Description</b>		
<p>getCapabilities request performed by WMS provider isn't checked for exceptions. This makes it hard to debug servers...</p> <p>Btw, WMS 1.3.0 exceptions look different from WFS 1.0.0 exceptions.</p> <p>Here's an example:</p> <pre>[[ServiceExceptionReport]] version="1.3.0" xsi:schemaLocation="http://www.opengis.net/ogc http://schemas.opengis.net/wms/1.3.0/exceptions_1_3_0.xsd"&gt; - &lt;ServiceException&gt;  msGetLabelSize(): [[TrueType]] Font error. Requested font (arial) not found. &lt;/ServiceException&gt; &lt;/ServiceExceptionReport&gt;</pre>		

#### History

##### #1 - 2010-07-20 12:47 AM - Sandro Santilli

Same happens for [[GetMap]] requests. In this case, qgis might instead ask for inline exceptions (in-image) when supported by server.

##### #2 - 2011-12-09 09:10 AM - Paolo Cavallini

- Pull Request or Patch supplied set to No
- Assignee deleted (nobody -)
- Category changed from Data Provider to Web Services clients/WMS

##### #3 - 2011-12-16 01:55 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

##### #4 - 2012-04-15 10:12 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

##### #5 - 2012-10-06 02:23 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

##### #6 - 2017-05-01 12:50 AM - Giovanni Manghi

- Easy fix? set to No
