QGIS Application - Bug report #2901
save as image should remember last user's choice

2010-07-22 10:19 AM - Paolo Cavallini

Status:	Closed			
Priority:	Low			
Assignee:	Giuseppe Sucameli			
Category:	GUI			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	12961

Description

Currently when the user wants to save the canvas to a file, the obsure BW format is always presented first. The last usr's choice should be remembered, and|or the most common formats (PNG, JPG) should be listed first

- Status changed from Open to In Progress

From commit:90cda1e3 (SVN r13958) save as image should remember the last used filter.

About the formats in the save as image dialog, their order depends on the QImageWriter supported formats.

If we want to see them listed in a different manner we have to reorder them.
I think the order is not so important if the dialog remember the user's choice.

What your opinion? Do you think we have to change the displayed formats order?

#2 - 2010-07-24 11:38 PM - Paolo Cavallini

- Resolution set to fixed
- Status changed from In Progress to Closed

I think this is good enough. Please reopen if necessary.
