

QGIS Application - Feature request #2905

New symbology: button for fill with random colors

2010-07-24 09:36 AM - aperi2007 -

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Symbology	
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 12965
Description The New Simbology, when choose the "categorized" option, there are two method to categorized, automatically using the ramp color or manually adding one by one. The ramp color is very useful, but sometime, is better choice, like in the old-simbology, use a random-colors list. So would be nice to have even a button for automatically fill the list using random-colors.
