

## QGIS Application - Bug report #291

### 'Save as Image' is bogus

2006-09-22 01:23 PM - Redmine Admin

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Gary Sherman	
<b>Category:</b>	GUI	
<b>Affected QGIS version:</b>		<b>Regression?:</b> No
<b>Operating System:</b>	Linux	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 10350
<b>Description</b>		
<p>File -&gt; Save as Image saves as jpeg, but:</p> <ol style="list-style-type: none"><li>1. Why jpeg after all? I'd want a png or tiff and let myself convert later if needed - jpeg is lossy and I might need a good quality picture.</li><li>2. Doesn't tell what format it will be.</li><li>3. Doesn't set the extension.</li><li>4. Once it shows this is an jpeg what was saved, I find it strange that I had no possibility to tune the quality.</li></ol> <p>Maciek</p>		

#### History

##### #1 - 2006-09-22 03:13 PM - Gavin Macaulay -

Fixed, to a degree, in svn .

##### #2 - 2006-09-22 03:14 PM - Gavin Macaulay -

- *Resolution set to fixed*

- *Status changed from Open to Closed*

##### #3 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
