QGIS Application - Feature request #2935
More flexible snapping options

2010-08-11 06:11 AM - zicke -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Digitising		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12995

Description

While digitizing a lot it can be very annoying to turn on/off and change the snapping options.

i) It should be able to assign a default snapping behaviour to every added layer.

ii) The snapping options gui should be dockable.

- Resolution set to fixed

- Status changed from Open to Closed

ad i:

A default snapping behaviour can be defined in Settings/Options/Digitizing/Snapping

ad ii:

The snapping GUI is dockable in Trunk (Settings/Options/Open snapping options in a dock windows)
