### Description

Hi

I guess you are busy working on the data driven side of things, but I thought I would mention that in trunk r1429 you can no longer save / apply your labelling settings.

Also the dialog has grown vertically to the point that it no longer fits on my 1366x768 screen comfortably.

Regards

Tim

## History

#### #1 - 2011-04-22 11:25 PM - Marco Hugentobler

Is the problem with save / apply still true?

#### #2 - 2011-06-01 04:53 AM - Marco Hugentobler

- Resolution set to fixed

- Status changed from Open to Closed

Closing due to lack of feedback. I cannot reproduce the problem. Please reopen if still true.
