QGIS Application - Bug report #2971
Trunk r14153 - Turning an empty layer on and off zooms the map overview in and out

Pull Request or Patch supplied:		**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:		**Copied to github as #:**	13031

Description

(This is using the r14153 build from the osgeo installer; please tell me if we aren't really supposed to report bugs against these builds)

If I have a layer (only tested with shapefiles) with no objects in it, the map zooms in and out when I turn it on and off.

This is disconcerting mostly because it occurs after I use Layer->New->New Shapefile layer.

History

#1 - 2010-08-27 04:33 AM - Alister Hood

Sorry; I forgot to say this doesn't occur in 1.5.0.

#2 - 2011-03-07 12:07 PM - Anne Ghisla

Is it reproducible with more recent builds?

#3 - 2011-03-07 01:28 PM - Alister Hood

No, now it only zooms the overview in and out ;)

Good catch.

#4 - 2011-12-16 01:55 PM - Giovanni Manghi

- *Target version changed from Version 1.7.0 to Version 1.7.4*

#5 - 2012-04-16 06:24 AM - Paolo Cavallini

- *Affected QGIS version set to master*

- *Crashes QGIS or corrupts data set to No*

- *Target version changed from Version 1.7.4 to Version 1.8.0*

#6 - 2012-09-04 12:02 PM - Paolo Cavallini

- *Target version changed from Version 1.8.0 to Version 2.0.0*

#7 - 2014-06-02 04:31 AM - Nathan Woodrow

- *Resolution set to fixed/implemented*

- *Status changed from Open to Closed*

- Assignee deleted (nobody -)

- Pull Request or Patch supplied set to No

No longer a issue in master (2.4). Reopen if you see it happen again.
