

QGIS Application - Bug report #3020

Possibly obsolete error message for field functions min/max on string field

2010-09-18 05:49 PM - Volker Fröhlich

Status:	Closed	
Priority:	Low	
Assignee:	Jürgen Fischer	
Category:	Vectors	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 13080
Description		
<p>Using <code>[[QgsVectorDataProvider]]</code>'s <code>maximumValue</code> or <code>minimumValue</code> methods raises above error messages, when used on strings. It's working nevertheless. I assume, these error messages are no longer valid.</p>		

History

#1 - 2010-09-19 06:17 AM - Jürgen Fischer

- Resolution set to *invalid*
- Status changed from *Open* to *Closed*

The OGR functions are still invoked, but if they fail the "standard" implementation is used. So the error message should simply be ignored.
