

QGIS Application - Bug report #303
rasters conatining nulls are all black

2006-09-24 06:38 AM - Redmine Admin

Status:	Closed	
Priority:	Low	
Assignee:	Gavin Macaulay -	
Category:	Rasters	
Affected QGIS version:		Regression?: No
Operating System:	Linux	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10362
Description		
<p>Open the attached Gtiff in QGIS. It will be all black though querying it proves it has wide data range. Propably the reason is QGIS can't handle null value it contains.</p> <p>The Gtiff opens fine in [[OpenEV]] viewer.</p> <p>Maciek</p>		

History

#1 - 2006-10-22 02:34 AM - Gavin Macaulay -

Initial partial fix in commit:e260cc13 (SVN r5999). At least the nulls are plotted transparent now. Qgis still gets confused when working out the colour mapping. More to come.

#2 - 2006-10-23 01:35 AM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in commit:e81f6320 (SVN r6000).

#3 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
