

QGIS Application - Bug report #3076

OSM plugin: python error clicking on "load OSM from file"

2010-10-03 03:49 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:	Martin Dobias	
Category:	Python plugins	
Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 13136
Description		
<p>This happens on trunk under Ubuntu 10.04. Under trunk/osgeo4w does not seems to happen:</p> <p>Traceback (most recent call last): File "/usr/share/qgis/python/plugins/osm/OsmPlugin.py", line 199, in loadOsmFromFile self.dlgLoad=OsmLoadDlg(self) File "/usr/share/qgis/python/plugins/osm/OsmLoadDlg.py", line 57, in +init+ item.setFlags(Qt.ItemIsSelectable Qt.ItemIsUserCheckable Qt.ItemIsEnabled) [[AttributeError]]: 'module' object has no attribute 'ItemIsSelectable'</p>		

History

#1 - 2010-10-03 04:00 PM - Borys Jurgiel

It's caused by the line 19: from [[PyQt]]4 import *

```
from [[PyQt]]4.QtCore import *  
Qt
```

<class 'PyQt4.QtCore.Qt'>

```
from [[PyQt]]4 import *  
Qt
```

<module 'PyQt4.Qt' from '/usr/lib/pymodules/python2.6/PyQt4/Qt.so'>

Is this import used anywhere at all?

#2 - 2010-10-05 05:02 AM - Giovanni Manghi

the same message shows when clicking on "download" in the "download osm data" dialog.

#3 - 2010-10-05 05:21 AM - Giovanni Manghi

works fine under trunk/osgeo4w

#4 - 2010-10-17 02:11 AM - Giovanni Manghi

- *Resolution set to fixed*
- *Status changed from Open to Closed*

Just recompiled from source and this error seems to be gone.
