

QGIS Application - Bug report #3080

Tiresome message when searching CRS

2010-10-04 04:17 PM - Volker Fröhlich

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Projection Support	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 13140
Description		
How to reproduce: <ul style="list-style-type: none">- Open Project Properties- Start typing in the find field- Stop typing and try to change any of the three search criteria (Authority, Name/ID, Deprecated) A message pops up: I think this message is not necessary and it slows you down. I also think it would be handy to have "Name" pre-selected instead of "ID".

History

#1 - 2010-10-04 04:34 PM - Jürgen Fischer

- Resolution set to fixed
- Status changed from Open to Closed

fixed in commit:bc1966b2 (SVN r14333).

#2 - 2010-10-05 01:20 AM - Borys Jurgiel

Seems JEF implemented the first part only, what makes me happy.

?

For a future discussion: -1 for the Name as default. I believe we generally know our EPSG codes and are able to type them in < 1 sec. It's kinda "automatic" operation, so it would be very unhandy and irritating to change the combo from Name to Id all the time. If you don't know the EPSG code, the operation is slower anyway, so switching from Id to Name doesn't hurt as much as in the former case.

#3 - 2010-10-05 01:30 AM - Giovanni Manghi

?

For a future discussion: -1 for the Name as default.

?

agree

#4 - 2010-10-05 12:46 PM - Volker Fröhlich

Yes, I agree as well! It's the only place to enter the id directly. I didn't think about that.
